Dear ESREA associates,

This is our third and last newsletter in this strange year. 2020 has challenged us in many ways: as individuals, as professionals, as family members, as members of a society. If we learnt something this year, then this:

“No man is an island entire of itself; every man is a piece of the continent, a part of the main; [...] any man's death diminishes me, because I am involved in mankind. And therefore never send to know for whom the bell tolls; it tolls for thee.”
(John Donne)

I wish you a healthy, happy, and thoughtful close to 2020.

Yours,
Alexandra

1. European Research and Education Updates

On November 10, the Council of the EU and the European Parliament agreed a package for EU spending for the period of 2021-2027. This agreement included a €4bn rise from the previous €80.9bn figure for Horizon Europe, the new research framework programme of the EU. However, the agreement still needs to be approved by the governments of the EU countries. The agreement reached foresees linking the access to EU funding to respect for the rule of law. The Hungarian and Polish governments oppose the idea and refuse to approve the EU's long-term budget and recovery package until substantial amendments are made in this respect. Publication of the first work programmes in Horizon Europe is expected for end of March 2021.

[Open Research Europe](#) is the EU's publication and open peer-review platform for research stemming from Horizon 2020 funding. The platform has begun to accept submissions from authors. The publication costs will be covered by the European Commission, making it completely cost-free for authors. At a later stage, it could be opened up to authors that did not receive EU funding.

The European Commission's [Action Plan Digital Education](#) to promote a high-performance digital education ecosystem has been published.

At the end of this year, the [European Agenda for Adult Learning](#), the central policy document on the development of adult learning, comes to an end. The EU Commission is obviously not interested in a follow-up document, at least at present.

For some still seems unimaginable, for the UK prime minister it is "a fantastic moment": The UK leaves the EU. We all feel a profound sense of loss and will miss the British knowledge, pragmatism and humour. But we will still have them in ESREA and this is really fantastic!

2. 2nd Ordinary General Assembly

Between November 17 and 26 the 2nd Ordinary General Assembly of ESREA took place as online ballot. The members of ESREA approved the Management Report of 2020 and discharged the Board on the basis of the auditor's report.

We thank our members for supporting us with their membership also in this year and for their active participation.

3. Call for Tenders to host the ESREA Triennial Conference in 2022

Every third year ESREA organises a research conference somewhere in Europe in cooperation with a hosting institution. This conference is not connected to any specific network, rather it aims to gather all ESREA members and friends for a joint conference. The previous conferences were organised at different locations throughout Europe: from Lisbon (2001) to Linköping (2010) and from Maynooth (2016) to Belgrade (2019).

There is a [new call for tenders](#) to organise the ESREA's next triennial conference in September 2022. Tenders should be sent to ESREAsecretary@die-bonn.de no later than February 19, 2021. The final decision will be taken by the presidium. We hope that we will be able to have a face-to-face conference in 2022 and meet again as many of you as possible.
